4 HOW THE PRODUCT WORKS

You invest in a unit trust of your choice made available by the Manager.

The Administrator keeps an Investment Account, on behalf of the Manager, for the Investor. The value of the Investment Account is directly linked to the value of the investment in the Product. The value of the Investment Account is increased by contributions and by positive investment returns, and is reduced by negative investment returns, fees, expenses and charges.

The Investor is the owner of all investments held in the Investment Account. The investments are held in the name of the Trustee on behalf of the Investor.

During the course of the investment, any income distributions from the Product will be paid to the Investor, or will be reinvested into the Product. The Manager must be instructed to disinvest from the Product, and the proceeds realised will be paid to the Investor.

New applications:

Any fully and correctly completed and signed application form which has all required documentation attached, received and accepted by the Manager, and where the contributions reflect in the applicable bank account before 15h00 on any Business Day, will be processed on the Administrator's system on the same Business Day. If this takes place after 15h00 on any Business Day, the application will be treated as if it had been received before 15h00 on the next Business Day. The Investor will receive the prices applicable on the day of processing. Internet banking payments may take up to 2 Business Days to reflect in the applicable bank account. Please note that in accordance with banking legislation, cheque deposits will need to undergo a clearing period of 10 calendar days within the Rand Monetary Area and 15 calendar days outside the Rand Monetary Area. The funds will therefore only be available for investment after the clearing period has lapsed.

Additional Contributions:

Any fully and correctly completed and signed additional investment form which has all required documentation attached, received and accepted by the Manager, and where the funds reflect in the applicable bank account before 15h00 on any Business Day will be processed on the Administrator's system on the same Business Day. If the bank details provided on the withdrawal form differ to those recorded on the Investor's account, proof of bank details must be provided before the instruction will be executed by the Administrator. Although a withdrawal will show on your statement within 2 Business Days, the payment may take up to 5 to 7 business days to reflect in your bank account.

Notes:

- Investors wishing to redeem Units amounting to more than 5% of the total market value of the Product must provide the Manager with at least 7 Business Days' written notice of such redemption. If this notice is not received by the Manager, it may treat such withdrawal as only having taken place on the 7th Business Day after such instruction is received. However, where the amount to be redeemed exceeds 10% of the total market value of the Product, the actual date of withdrawal will be determined by mutual agreement.
- Units in the Product will be bought and sold at the net asset value price in accordance with the requirements of the Collective Investment Schemes Control Act and the relevant Deed.
- The net asset value price is calculated using the forward pricing methodology. The net asset value can be defined as the total market value of all assets in the portfolio including any income accruals and less any permissible deductions from the portfolio, divided by the number of Units in issue.
- The repurchase of Units in the Product may be suspended in terms of Cisca under specific conditions. This is referred to as ring-fencing and will delay the payment to you of any withdrawal value.

The Administrator is responsible for the payment of dividend withholding tax and withholding tax on interest on your behalf where relevant. The tax will be deducted before reinvestment/payment of any dividend or interest. The amount of tax payable is based on a number of factors, e.g. residential status. The default dividend withholding tax rate for South African residents is currently 15% and the default withholding tax on interest tax rate for non-residents is 15%. You are responsible for informing the Administrator if you are exempt from payment of these taxes, or to indicate your status to ensure the correct tax rate is applied.

9.5 Loans and security cessions

You cannot obtain a loan from the Manager or the Administrator. You can use the investment as security for a loan, i.e. request the Manager to record a security cession against your investment. The Manager is not responsible for entering into the cession.

9.6 Switching from the Product

You may switch between the available unit trusts. All switch transactions have two components, the sale of units from your existing unit trust and the purchase of units in another unit trust.

If the market value of a unit trust from which you wish to switch is less than the minimum amount prescribed by the Manager, the Manager will switch the whole amount. This amount must be switched into one unit trust.

In addition, you expressly consent that IFM may verify and process your personal information (including your voice and or biometric data) for security purposes and so as to comply with its obligations in terms of legislation.
